Scenario:

You are an average everyday person who pretty much goes about the same routine day to day. You acknowledge that you need to quit smoking but everything so far has not worked. You see a commercial one day for a new nicotine humidifier product that is said to ease you out of the addictiveness of smoking with each passing night.

Task one: Sign in to the app.

Task Two: Customize your humidifier with the various options

Task Three: Check humidifier Status.

Notes:

Changes:
1. Allow the user to go backwards
2. An option for auto off
3. Easier nicotine level bar

Keep:
1. Design
2. Easiness of the app
3. Simplistic instructions
